Brochure

jump! Fully Upholstered Screens

Jump! screens provide an inexpensive solution to the division of your space.

Available in both desk mounted and freestanding versions 26mm thick with top options that include straight, curved and wave profiles.

desk mounted >

Jump! Desk mounted screens are linkable as an optional extra with a choice of two, three or four way linking strips available.

With numerous fixing brackets available to suit all kinds of desking ranges.

> straight top

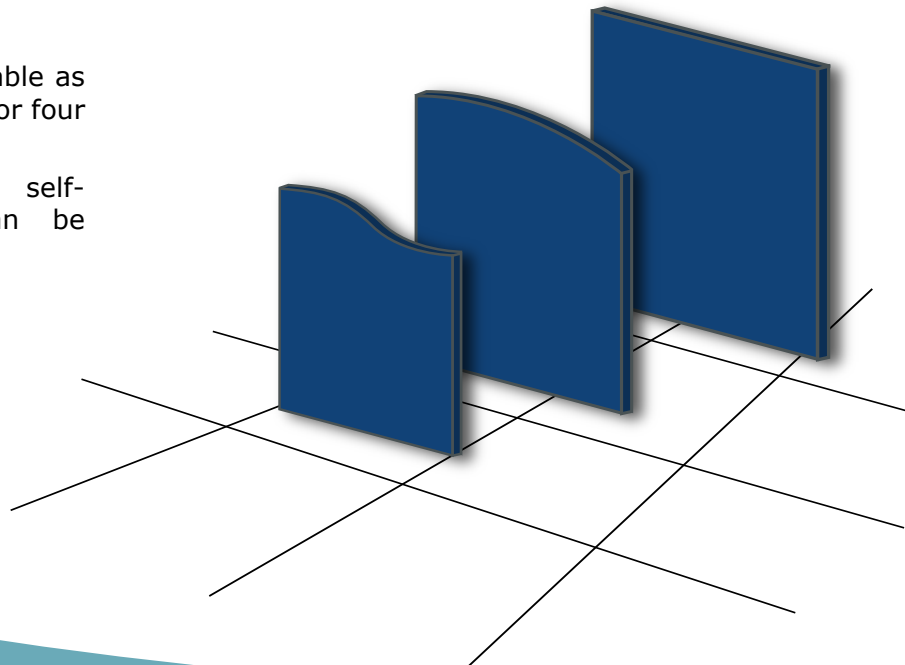

> curved top

> wavy top

free standing & linkable >

Jump! freestanding screens are linkable as standard with a choice of two, three or four way linking strips available.

For configurations that are not self-supporting, freestanding feet can be purchased where necessary.

Fully Upholstered Screens

jump!

finishes & general >

Screen panels are made from 25mm thick chipboard, covered with upholstery foam and then fitted into a fabric sleeve. Fixing holes for screen brackets are prepared where necessary.

All screens are then being quality checked, cleaned and packaged individually or to customers request. (for large orders we can palletise the screens which are shrink wrapped to prevent any damage during transit.)

Each desking screen includes a pair of brackets to fit your office desk.
