## marathon! Aluminium framed Screens

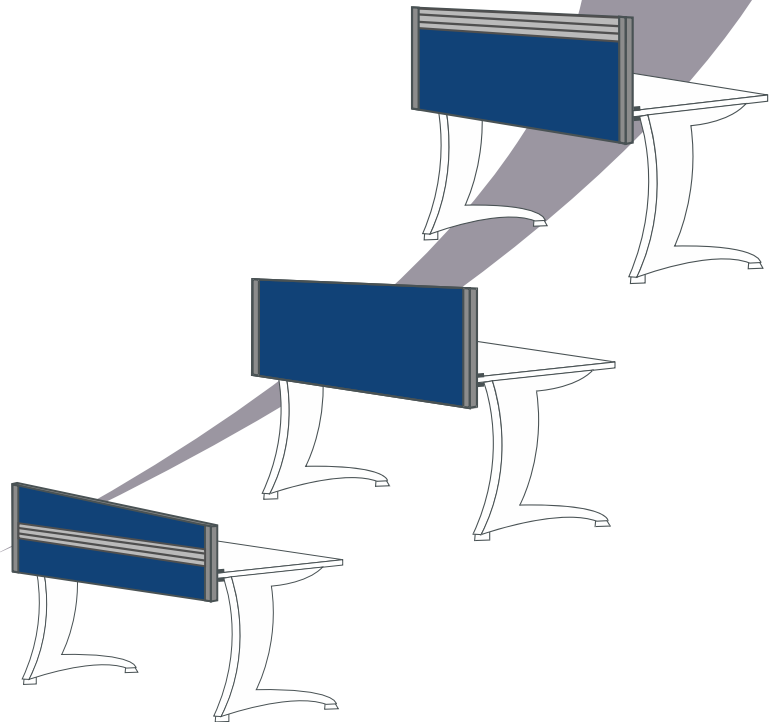

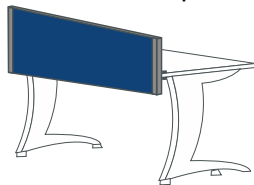

Introducing Marathon: an executive screen range allowing freedom of expression through their flexibility & adaptability.

Available in both desk mounted and freestanding versions 40mm thick with top options that include straight and sloping profiles.

### desk mounted >

Marathon! Desk mounted screens are linkable as an optional extra with a choice of two, three or four way linking strips available.

With numerous fixing brackets available to suit all kinds of desking ranges and also offering you either the desk-top or fly-by fixing option.

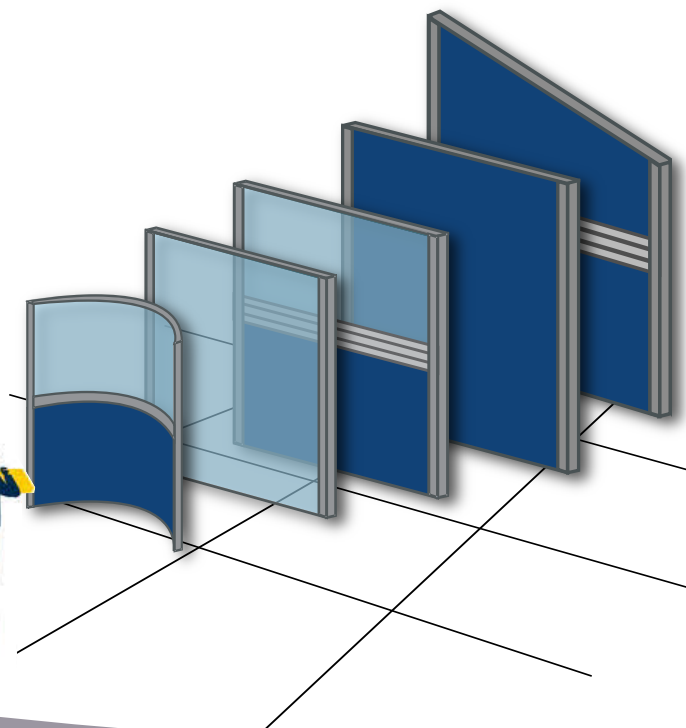

> straight top > sloping top > straight top  
> straight top > sloping top > straight top

### free standing & linkable >

Marathon! freestanding screens are linkable as standard with a choice of two, three or four way linking strips available. These will fit into the Aluminium support frame on either side of the screen panel.

Options to have the screens split with multiple materials are available in this range.

For configurations that are not self-supporting, freestanding feet can be purchased where necessary.

## finishes & general >

By understanding how people work now, we have been able to make Marathon a truly versatile office screen system.

Let us show you how groups and teams can interact, where privacy is important, how information technology can be smoothly integrated and how easily change can be made.

Each desking screen includes a pair of brackets to fit your office desk.
